Hire Purchase

Hire Purchase (HP) could help you spread the cost when you buy your dream motorhome.

Hire Purchase

How it works

- You agree an initial deposit, an agreement term of 1-10 years, and monthly repayments with your dealer.
- Your dealer takes your deposit out of the total price of the motorhome.
- You pay the remaining balance, plus interest, in equal monthly repayments over your agreed term.
- Black Horse buys the motorhome on your behalf. That means we own the motorhome for the length of your finance agreement.
- When you've made all the repayments, including any interest, you become the owner of the motorhome.

More details

Flexible deposit options: £0 deposit may be available.

Fixed interest rate and monthly repayments: You'll make the same monthly repayment throughout your agreement term, with a fixed interest rate.

End of agreement: You'll own the motorhome after you've made all the repayments, including interest. We include a purchase fee of £10 as part of your final repayment.

A young boy with short brown hair, wearing a white t-shirt, is sitting at a table and eating raspberries. He is holding a raspberry in his mouth with his right hand. On the table in front of him is a white plate with several raspberries and a slice of white bread. The background is slightly blurred, showing what appears to be the interior of a motorhome or a similar vehicle. The lighting is warm and natural, suggesting an indoor setting with a window nearby. The overall mood is casual and pleasant.

Personal Contract Purchase

Personal Contract Purchase (PCP) can help you buy your dream motorhome in lower monthly instalments than Hire Purchase. With PCP, you can choose to wait and pay off a large portion of your total repayment amount in an optional final repayment.

However, you will pay more interest on a PCP agreement than an HP agreement for the same loan amount, term and APR.* This is because the amount you owe reduces more slowly due to the optional final repayment.

Personal Contract Purchase

How it works

- You agree an initial deposit and an agreement term of 1-5 years with your dealer.
- Your dealer works out your monthly repayment amount and optional final repayment amount. This is based on the anticipated value of your motorhome at the end of your agreement.
- Black Horse buys the motorhome on your behalf and owns the motorhome for the length of your agreement.

End of agreement: You can choose to either part exchange, return the motorhome or pay the optional final repayment to own it. These options may be subject to fees, charges or status. Your motorhome could be worth less than the optional final repayment, leaving you with a shortfall to pay before you can start a new agreement. If you choose to return your motorhome we'll assess its condition, allowing for fair wear and tear.
